## Sketches of Science at Tohoku University

### Special Lecture

2014

8/23 Sat.

15 : 30 ~ 17 : 20

Venue The Westin Sendai

#### Program

15 : 30–15 : 40 **Opening Remarks**

Dr. Susumu Satomi, President of Tohoku University

15 : 40–16 : 40 **Special Lecture**

Dr. Olov Amelin, Director of the Nobel Museum

## “ The Origin of the Nobel Prize and the Impact on the World in the Future ”

The Nobel Prize is one of the most famous awards in the world. However, its significance, origin, and future direction are not as famous as the prize itself. Besides that, it is hard to imagine how much influence the world's greatest award had, or will have on research activity. In conjunction with the Sketches of Science exhibition at Tohoku University, we invite Dr. Olov Amelin, the Director of the Nobel Museum to give a special lecture on the story behind the Nobel Laureates.

\*with interpretation in Japanese

Dr. Olov Amelin

16 : 40–17 : 20 **Public Dialogue**

Dr. Olov Amelin and Prof. Masayuki Yamamoto, Executive Director of the Tohoku Medical Megabank Organization

## “ The Selection Process of the Nobel Prize ”

The selection process of the Nobel Prize is a very interesting topic. Although, even if you are familiar with the process it does not mean that you can win the Prize. Prof. Masayuki Yamamoto, the Executive Director of the Tohoku Medical Megabank Organization will reveal the secret of the Nobel Prize screening process.

\*with interpretation in Japanese

Prof. Masayuki Yamamoto
